

COMPREHENSIVE OCCUPATIONAL HEALTH SOFTWARE

OCCUPATIONAL HEALTHCARE

Log all medical details and issue a Certificate of Fitness. Personalize medical reports and CoFs with your company logo and address. Add a QR Code.

PRIMARY HEALTHCARE

Log PHC consultations, sick notes and medication issued. Report and analyze extensively and easily. Instant access to employee history – chronic conditions, allergies, medicals etc.

INJURIES ON DUTY

Log all the relevant details as you are treating IOD's. Detailed analysis reveals patterns for preventative planning.

REPORTING AND ANALYTICS

Comes with over 200 standard reports. Create your own reports and charts depending on clinic, management and client needs using flexible Excel based outputs.

THE COMPLETE HSE MANAGEMENT SOLUTION

INCIDENT MANAGEMENT AND TRACKING

Log incidents, assign actions and alert all responsible for completing them.
Analyze by severity, department and many other categories.

INVESTIGATIONS

Log investigations and root causes, assign actions and alert all responsible.
Track the investigation process and load all associated documents.

MONITORING

Schedule and track all inspections calibrations, audits and more.
Tablet and cellphone based inspection checklists. Alert responsible managers when inspections are due and when missed!

TRAINING

Schedule all training automatically. Send out reminders and view history by employee, department etc. Training material and performance records easily stored and accessed.

OTHER FEATURES

- Safety and Product Data sheets
- All documentation stored electronically and may be accessed easily and fast
- Email alerts (automatic scheduled alerts and manual alerts – put the responsibility where it belongs)
- Log training expenses
- Many standard one-click reports and flexible Excel based reporting – analyze anything fast and to suit your needs
- PPE control including scheduled replacement
- QR codes where needed
- Risk assessment hybrid app approach (assessment logging on mobile with reports and controls on PC)
- Risk profiling (OREPS and conform to Annexure 3)
- User access control
- User specific dashboards
- Waste disposal management and recording
